

MEMORANDUM FOR THE RECORD

30 July 1956

NIS Documents Unaccounted for on log of 68th Bomb Wg.
Lake Charles, La. -- 1955

The attached lists were handed in by Col. Hausman after the NIS Committee meeting on 27 March 1956. Col. Hausman advised that this NIS material was in all probability destroyed and the record of destruction lost. However, he said that OSI/AF was investigating and that he would report the outcome.

Today I checked on that and was advised by Col. Gaines that the matter was still open, and under investigation by OSI/AF. He will inform us of the outcome when they receive the report.
